Driver licence	Car
Equipment experience	
<b>6. Hobbies and interests</b>	
Sport	
<b>7. Job start date</b>	
As soon as possible	

# Autobiography

---

My name is Dmytro. I am 23 years old. I was born and live in Ukraine. I have a big family. My father Valerii is retired. My mother Mariia works at a local primary school as a teacher. My elder brother works at pig farm in Canada. He is married. My sister-in-law is a nurse. I am not married and don't have children.

My height is 171, weight 61kg.

In my childhood I liked to spend my holidays and weekends at my grandparent's place and help them with their household where they always had some animals and a plot of land. In addition to that, they owned a large and beautiful garden. There my grandparents grew apples, pears, cherries, apricots, raspberries and currant bushes. I always helped them to do tree trimming, prune dead branches and pick fruits in the fall.

After school I worked in the field with vegetables, but I always had a dream - to become an agronomist. That was a reason why I decided to get an agrarian education.

In 2016 I started to study in Agrarian Lyceum, the agronomy department. During my study at lyceum I have had different kinds of training practice in the greenhouses that belong to the lyceum. My responsibilities mostly were connected with taking care of plants and working with soil. I did planting and transplanting, watering, pruning and weeding of plants, also fertilizing of soil. Currently I just have graduated from the lyceum.

In October 2018 I went to Denmark, where I got through a practice on a pig farm. I practiced for a year and I was taught to perform such duties in the farm:

- feeding and watering pigs,
- vaccinating,
- castration,
- artificial insemination,
- moving pigs,
- treatment of sick pigs with medicine,
- transportation of fooder with a tractor,
- cleaning and washing of stables.

I am good at English language. Also, I speak Ukrainian and Russian.

I have a driving license and can drive a car. I have experience in tractor driving, too.

As for my hobby I like sport, especially running and swimming.

I think the potential of my country is not discovered enough and now agriculture of Ukraine experiences not the best times. That is why I'm looking for a seasonal job in Norway to apply my knowledge and experience and get new ones in the sphere of agronomy. I think it's the best way to expand my outlook, to communicate with international people.

Regards,

Dmytro
