Autobiography

My name is Vladyslav. I'm 25 years old. I am a citizen of Ukraine. My family consists of 5 people: my mom and dad, my younger sister, brother and me. We all are very friendly and happy to have each other. My parents are the best example for me to follow. My mom works as a senior medical representative of "Servier" company. My dad is a director of "Your Health" pharmacy chain. My sister's name is Sophia, she's 15 years. She is a pupil. My brother's name is Oleksandr, he is almost 4 years. I love my family and appreciate their support.

When I studied at secondary school, I liked Anatomy and Zoology because I adored animals. Since I remember myself I always had some pets at home like cats. Also we had some domestic animals (rabbits and a dairy goat) at home as we lived in the separate house. I helped my parents to take care of them and I enjoyed it.

Since 16 I have lived separately from my parents and it helped me develop myself as an independent person, who can rationally plan time and costs.

I have an experience of work in Denmark. I worked at a dairy farm from September 2016 till July 2017. My responsibilities were milking, feeding calves and small heifers, control of milking, pushing silage to the cows, cleaning with a high-pressure cleaner, driving a mini loader.

While working in Denmark I understood that farming would be my future profession and when I returned, I decided to enter the Vocational Agrarian Lyceum. Since 2017 to 2020 I was studying in the lyceum on the faculty of veterinary and stockbreeding. I was glad to study and deal with professionals, who were my teachers. During studying I had some practice on the training farm of the lyceum.

I have good speaking skills in English and can speak Russian. Ukrainian is my native language.

I have a driving license and can drive a car. Also I can drive a tractor without trailer. Speaking about my hobbies, I like playing football, swimming, running and going to the gym as I'm fond of sports. I like to keep fit, though it's a hard work, I always try to do my best. Also I like listening to different kinds of music (depending on my mood) and travelling. I don't have bad habits as I prefer healthy way of life.

In conclusion, I would like to tell a bit about my personal qualities which are important for an agricultural worker: I am a responsible, hard-working, reliable, friendly person, who gets on well with people. I am ready to help in difficult situations.

Now I am seeking the position of skilled worker at a dairy farm in Norway. I want to get new experience and apply my gained skills on practice. It is interesting for me to compare the ways of farming in different countries and of course to take something new for myself. I would be thankful for the opportunity to work as a skilled worker at one of the dairy farms in Norway.

Regards,

Vladyslav.
