# Autobiography

---

My name is Maryna. I'm 27 years old. I was born in a small town in Ukraine. I have a big family. My stepfather Ivan works for himself as a builder and my mother Tetiana is a knitter. Also I have two little sisters Anzhelika and Violetta. I'm not married. But I have a boyfriend. We are planning to work together with him at a plant farm.

My childhood was very active. During school years I was playing volleyball, table tennis, football, I also attended folk dance club and very often I went for different competitions.

All time, when I had school holidays I visited my grandparents in Moldova or another grandparents in a small Ukrainian village. That time I spent with great pleasure, because I helped them with home animals (cows, pigs, chickens and goat) and also I worked with them in the garden. Now I always help my parents to plant different agricultural crops (potato, tomato, carrot, beans, cabbage and other).

After school I found a job in the supermarket. But sitting at the same place was too boring for me. I wanted to learn something new, to work with plants. I decided to do some changes in my life.

In 2016 I entered Agrarian Lyceum, the faculty of agronomy. My boyfriend came with me too and we got a three-year studying course.

My dream was to get an internship in Denmark, and in November 2018 I finally went for practice. I worked on a dairy farm and did a lot of duties:

- feeding and watering cows,
- giving vitamins,
- giving medicine,
- making injections,
- start or stop milking,
- separating cows,
- giving straw to cows,
- cleaning inside and around the farm.

I'm very active, inquisitive, sociable, industrious. I have good English language, also I speak Ukrainian and Russian.

I have a driving license and can drive a car.

I speak English.

I want to get and study more and more information about plants, and it would be good experience to get work at Norwegian plant farm. I am going to work with my boyfriend.

Regards,

Maryna.
