Equipment experience	Car(good), Tractor(satisfactory)
6. Hobbies and interests	
Science (psychology, astronomy, physics, biology and chemistry), travelling	
7. Job start date	
As soon as possible	

Autobiography

I am Oleksandr. I was born and raised in Ukraine. My native town is Khmelnytskyi. I was born in 1996. So, now I am 24 years old and I'm not married. My parents are entrepreneurs. And they wanted to see me in this field as well but I decided to connect my professional life with agriculture. My mother's and father's name are Rimma and Viktor. Also I have older brother. My height is 184 cm, my weight is 86 kg.

When I studied at secondary school I was an excellent pupil. After finishing school I found a job in the sphere of trade. But I enjoyed dealing with animals and this love was promoted by my grandparents. I spent a lot of time in the village where they live. They taught me to feed the animals, prepare food for them and clean up after them. It urged the idea to get the agricultural education.

In 2017 I entered Agrarian Lyceum, the faculty of veterinary and stockbreeding. During my study I had a practice term at a training farm where I worked with animals. As I am sure that learning by doing is the most effective for gaining necessary skills, I found the internship in Denmark.

In 2019 -2020 I did the practice on the dairy farm of Christian Carstensen in Denmark. It was a precious experience which helped me improve my professional skills significantly. I was responsible for taking care of the animals, milking cows, feeding, medical treatment, driving mini-loader and tractor without trailer, washing the stables.

I speak English very well as I travel a lot and have an opportunity to practice language. Also I speak Russian. Ukrainian is my mother tongue. I have a driving licence and can drive a car. Also I have an experience of driving mini-loader and tractor without trailer as I mentioned above. While working in Denmark I got the license to drive a tractor. As for my hobbies, I am fond of science and travelling. I managed already to visit such countries as Italy, France, Spain, Denmark, the Kingdom of Monaco, Hungary and many other countries.

Now I am seeking the opportunity to work in Norway - one of the most progressive countries with developed agriculture. For a long time I dreamt to visit this beautiful country and I would be thankful for the opportunity to apply my skills on practice and get new ones on the dairy farm.

Regards,

Oleksandr
