Driver licence	Car
Equipment experience	Tractor(good)
6. Hobbies and interests	
weightlifting, boxing	
7. Job start date	
As soon as possible	

Autobiography

My name is Anatolii. I'm 27 years old. I was born in Cherkasy. As for my family, my father Oleh is a farmer, he grows pigs, chickens, ducks and looks after a big apple garden, too. My mother Olha is a nurse at the hospital. I'm married. My wife Yuliia just finished studying like me. We don't have children yet.

My height is 179 cm, weight is 87 kg.

When someone asks me about my childhood, I answer I was a little farmer. And it's true, because all my childhood and teenage I worked with my father in the garden and looked after animals. My father taught me everything he knew. He always wanted me to be a farmer. Thanks to my working experience, I am good in the field work, I worked a lot in the fields.

After school, I worked at the factory, because I wanted to help my family with money. I worked there as a loader and then as a mechanic. Every weekend I went home and helped parents to take care of animals.

I want to continue my father's business and to be a farmer. This was the reason why I entered the Agrarian Lyceum, the faculty of veterinary and stockbreeding in 2017. I took my practice term there. I was at the training farm with other students of the lyceum. There we learned how to feed and water animals, look after piglets and do cleaning at the farm.

During studying I decided not to waste time and together with my wife found the place for internship in Denmark. From November 1, 2019 to June 6, 2020 we practiced on the well-equipped dairy farm where we got very precious experience. My duties comprised caring of calves, preparation of fodder for dairy cows and calves, washing boxes, hilling fodder for cows on a small tractor, milking cows, giving injections to calves, helping with childbirth, working in the fields, controlling the work of Delaval robots.

I like sport, especially weightlifting and boxing. I can speak English. Also I speak Ukrainian and Russian. I have a driving license and can drive a car. Also I have an experience of driving the tractor with trailer and performing field works.

I think when you want to be a farmer, it is necessary to develop yourself and modernize agricultural approaches. This is why I want to find the job in progressive Norway, apply my skills and get new ones. I would like to work together with my wife at a dairy farm.

Regards,

Anatolii
