Autobiography

My name is Ivanna. I am 22 years old. I was born in Lutsk, Ukraine. I have a small family. My father Volodymyr is a builder. My mother Larysa is a nurse. My elder brother Serhii also works as a builder. I'm not married, but I have a boyfriend. We dream to work in Norway together.

I'm 169 cm in height, and 62 kg in weight.

I was always keen on agriculture and gardening, as we live in a private house with the plot of land. We grow different vegetables (tomatoes, potatoes, cucumbers, carrots). We have a beautiful orchard with apple, plum, apricot and cherry trees. My mum likes gardening and she always grows flowers in the yard of our house. She taught me how to care for different plants, and I always helped her in gardening. Now it has grown for me from a hobby into a great passion. I really like working with plants!

In 2016 I started to study in Professional Agrarian Lyceum, and I chose the faculty of agronomy. I had different types of practice in the training greenhouses, where I learned how to work with plants in a proper way. I did

planting and transplanting of seedlings,

watering,

fertilizing of soil,

pruning and weeding.

I graduated from the Lyceum in January 2020.

I am good at the English language. Also, I speak Ukrainian and Russian.

As for my hobby I like sport and reading books.

Now my boyfriend and I want to get new experience in plant growing. So we decided to go to Norway. Also we would like to improve our knowledge of English and find new friends there.

Regards,

Ivanna
