Equipment experience	Tractor(good), Car(good)
6. Hobbies and interests	
Collecting coins, reading, music, motorcycles, active rest	
7. Job start date	
As soon as possible	

Autobiography

My name is Andrii. I was born in Krupets, Ukraine. I am not married. I have a family of four persons: it is me, my mother, my father and older brother. My mother Mariia is a seller, she is 54 years old. My father Mykola is an engineer, he is 56 years old. My older brother Yurii is 33 years old, he is a driver. Our family is very friendly.

My height is 176 cm, weight is 75 kg.

I have always been interested in agriculture, because we have a lot of land in the village and I am used to work with land and domestic animals. We grow various vegetables (tomatoes, potatoes, cucumbers, carrots and so on) and berries. We keep 1 cow, 3 pigs and a lot of chickens. I do all the work together with my parents. I prepare the land with a tractor that we have. I plow, harrow, cultivate the land and grow sugar beets and wheat, mow the grass for the cows.

From 1999 to 2010 I studied at Krupetsk Secondary School №1. During my studies I often took part in sports competitions for students. I also won prizes in basketball, running and volleyball. After school I entered Lviv National Agrarian University where I got the specialization of mechanical engineer.

In 2016 I worked as a seasonal worker in Germany on the farm Erdbeer-Hof. My duties were connected with strawberry harvesting, assembly and disassembly works, working in refrigerators.

In 2017 I decided to enter the Vocational Agrarian Lyceum. I chose the faculty of veterinary and stockbreeding. During studying I had different kinds of practice on the training farm. Also I found the opportunity to pass the practice on the dairy farm in Denmark from 2019 to 2020. It was very important experience for my professional becoming. It was a dairy farm with 180 hectares of arable land, 160 dairy cows, 40 calves and 100 heifers, three tractors. There I was responsible for milking cows, feeding calves, opening and covering of grass and maize, cleaning milking equipment, tractor and loader driving, all odd jobs at the farm.

I can speak English and Russian. My mother tongue is Ukrainian. I have the license to drive a car, lorry and motorbike. Also I have good experience of driving tractors and loaders. I can do welding and repairing works. I have many interests. For example, I collect coins, read book, listen to music, ride a motorcycle. I like to spend free time actively and travel.

Now I want to go to Norway because I would like both to gain more professional skills and apply on practice skills which I got already. Norway is one of the most advanced countries and I would be thankful for the opportunity to exchange the experience. I would like to work as a skilled worker in mechanics at the farm or at the service company.

Regards,

Andrii
