Equipment experience	Car(high), Lorry(good), Milking machines(good)

6.Hobbies and interests	History of the automobile, Automobile Restoration, Old cars
7.Job start date	As soon as possible

Autobiography

My name is Yaroslav. I was born in Lviv region, Ukraine. My father works at scientific-industrial enterprise. My mother works as a seller at the butcher's. My sister's name is Natalia. She is a third year student at Lviv Polytechnic University. In August 2015 I got married. My wife's name is Yuliia (born in 1991). She works as teacher of English. She is in decree at the moment and looks after our baby.

I started school in 1994. While I was studying at school I took part at school activities and competitions in sport and also attended the club of funny comics. I finished my school in 2004 and after that I was taken to the Army. I was serving for some years. Then I came back home and tried to breed cows and pigs. But I needed much money for my business. I started to look for a job.

From October 2009 till April 2010 I worked at TZOV "Brama" as operator of wood machines. But because as a lack of my career growth and little money I decided to leave that job.

From May 2010 till May 2011 I worked at butcher's in Warsaw, Poland as a driver-forwarder. My duties were to fill the car with meat products and to deliver them to shops. Also I served the car, I mean that I had to detect the car problems and fix them in time.

After coming back from Poland worked at TZOV "Energy-Novoiavorivsk" as a operator of steam turbines. My duties included to start and stop steam turbines, to monitor the parameters.

In March 2017 I went to Denmark and worked there at a dairy farm till August 2017. My duties were:

- feeding, milking, moving animals,
- cleaning, high pressure cleaning,
- taking care of young calves,
- coverage of stacks.

In September 2017 I decided to enter Agrarian lyceum on the faculty of veterinary. I wanted to start my own farm business so I needed to get the education in this branch.

From April 2018 till August 2018 I was undertaking the internship in Norway at a sheep farm. My duties were:

- feeding, taking part while shearing wool,
- giving medication orally and via injection,
- maintaining farm buildings and fences,
- monitoring the flock for any signs of illness or disease,
- assisting with difficult births, and managing waste.

My English is good, my native language is Ukrainian, also I can speak Russian. I am interested in the history of automobiles and old car.

I have a driving licence, I can drive a car and a lorry.

This year I graduated from the lyceum. I am in love with Norway and now I would like to go there again. I am looking for a job at a dairy farm. I want to gain more experience which will help me be engaged in farming even more deeply.

Regards,
Yaroslav.
