Autobiography

My name is Kristina. I'm 22 years old. I was born in the town of Uman. I have a small family. My father Vitalii is a security guard in a little kindergarden and my mother Nataliia is a technologist at fish production. I'm married. My husband's name is Tymofii.

My height is 162 cm, weight 63 kg.

From my childhood I've been connected to country style of life. I used to live at my grandparents' place and helped them with their garden, that was full of pretty flowers and fruit trees. I really enjoyed spending time in the garden among plants. My grandma had a greenhouse where she grew cucumbers and tomatoes. Also I helped in the field where we grew a lot of vegetables such as potatoes, carrots, cabbages, beets were grown. I did planting, weeding, harvesting and sorting.

In 2016 I entered Agrarian lyceum, the faculty of agronomy. There I learned all about plants, how to grow and take care of them. I had practice term in greenhouses. There I prepared soil for seeding and planting. I did fertilizing and watering.

I have an experience of work abroad. I spent a year practicing in Denmark. I worked on a flower farm together with my husband. There I did

planting,

taking care of flowers,

packing.

As for my hobby I like sport, especially aquatics like rowing. I have a lot of awards in sport. I am master of sports of international class.

I speak English, Ukraininan and Russian.

I am a car driver and have a valid driver's licence.

For the moment I want to gain even more experience in the field of agronomy and discover new opportunities.

Regards,

Kristina
