Autobiography

My name is Tymofii Kolisnyk. I'm 26 years old. I was born in a beautiful town Uman. I have four people in my family. My father Tymofii works at a service stations as locksmith and my mother Snizhana is a hairdresser. I'm married and don't have children yet.

My height is 181 cm, weight 75 kg.

From my childhood I always knew that if you worked hard you would receive results. I was 12 when I got my first experience in gardening. I helped my grandmother with flowers. In those moments I was happy and always wanted to know more about plants and growing of them.

I studied at school from 2000 till 2010. After school study I started to work part-time in the famous Sofiivka Park. There I was honored to become acquainted with many interesting and creative people who work there like gardeners. They told me things and secrets about the decorative growths, showed me greenhouses where there were many beautiful plants from another countries that I have never seen before.

In 2016 I started to study in Agrarian Lyceum, the faculty of agronomy. There I also had practice in greenhouses where I prepared soil for seeding and planting, transplanted seedlings, did fertilizing and watering.

In September 2017 I went to Denmark for practice. I worked on a flower farm for a year. My daily duties included:

planting,

taking care of flowers,

watering,

machine and manual planting flowers in pots.

I finished my education in 2019 and got the diploma of agronomist.

As for my hobby I like music, computer games, reading books. I have my own drums and I am crazy about playing them.

I can drive and have a driver's licence on cars. I can drive a tractor, too.

I speak English.

I always wanted to become acquainted with foreign specialists to get more experience in gardening. And now I will be glad to work in the sphere of horticulture at one of the Norwegian farms. Also I want to see Norway, its culture and traditions. I would like to work with my wife.

Regards,

Tymofii
