# Autobiography

---

My name is Yaroslav. I was born in the village Kamianka, Odesa region. My family consists of father, mother and sister. My father Oleksandr works in the mail delivery escort. My mother Nadiia is retired. My sister Olena is a housewife.

From my childhood I have been connected to country style of life. I helped my parents with their household where they always had some animals (pigs,cows and chickens) and the farmland where we grew vegetables and fruit. My parents taught me how to take care about domestic animals and garden. I really enjoyed spending on the farm close to nature.

After school I started work as a salesman and then as a sales manager.

In 2012, I decided to go to the village Lysianka, Cherkasy region with my wife. There I worked for the farm of her parents and helped them with their household.

In September 2015 I started studying in Agrarian lyceum on the faculty of veterinary.

From April to September 2016 I worked at a dairy farm in Denmark as a trainee. My job included milking, cleaning milking equipment, washing and disinfecting of stables, feeding, bedding, fixing up equipment. It was a great opportunity to improve my knowledge and skills and also to get a new experience.

In 2018 during the year I undertook the internship in Norway. There I was responsible for milking, feeding, cleaning, calf caring, animal health control, field work on the tractor (weed spraying, organic fertilizer spraying), transportation of animal feed by a tractor with a wheel loader and trailer, construction of a drainage system for the field, assistance in equipment repair on the farm.

As for me, I have a good level of English. As for my hobbies, I like sport, especially team kinds of sport such as football and volleyball, also I like to spend time outdoors and take care of the animals and garden. I am interested in the agricultural machinery. I don't have bad habits. I have a driving licence of category B, in addition to it I have the Norwegian driving licence. I like spending time in nature.

Norway is a country with stable economics and well- developed agriculture. I would be glad to exchange the experince in the sphere of agronomy. I want to work at a crop farm in Norway together with my wife.

Regards,

Yaroslav.
