Driver licence	
Equipment experience	Milking machines(high)
<b>6.Hobbies and interests</b>	Team kinds of sport, bicycling, spending time in nature.
<b>7.Job start date</b>	As soon as possible

# Autobiography

---

My name is Tetiana. I am from Ukraine. I was born in the village Lysianka, Cherkasy region. I am married and I live together with my husband and my parents.

My parents have some land and own household where they keep domestic animals. I have been helping them with their household from my childhood. They have pigs and cows and I help take care of pigs and cows. Also I work in our green house, where we plant vegetables and then we transplant them in the field. I am really interested in agriculture!

At school my favourite subjects were Natural Sciences: I attended additional classes in Biology.

After finishing my school I tried myself as a seller in the shop. I went to the big city and worked for some years. But in 2012 I returned with my husband to the village and we worked with my parents and helped them with household. My mum made dairy products and we sold them. Also I had a part time job on a local farm. Working in the farm was very exciting and useful for me.

In 2015 I entered Agrarian lyceum, the faculty of veterinary. But I decided not to be limited just to the education. I had several internships in Denmark and Norway.

From April to September 2016 I worked as a trainee at a dairy farm in Denmark. My job included milking, washing of milking equipment, feeding cows and calves, taking care of calves, bedding. In 2018 I had the practice in Norway as a seasonal worker also at the dairy farm. There my duties comprised milking, feeding, cleaning, caring for calves, weeding in the field. From September 2018 to January 2019 I had the same practice with the same duties but at another farm.

It was a great opportunity to improve my knowledge and skills and also to get a new experience of livestock and dairy production.

I have a good level of English. As concerns my hobbies, I like doing sports, going to the gym, bicycling, spending time in nature. I don't have any bad habits.

I have been to Norway already twice and managed to fall in love with this country for such a short period. I believe that I will be able to apply my knowledge, experience and get new ones during my work in Norway. I like working in the garden and I have such an experience, so that I would like to work at a crop farm with my husband.

Best regards,

Tetiana.
