Other language(s)	English - Good, Russian - Good
Driver licence	Tractor, Car
Equipment experience	Tractor(good)
6.Hobbies and interests	Football
7.Job start date	As soon as possible

Autobiography

My name is Ivan Orlovskiy, I am 31 years old. I was born and live in Halych, Ivano-Frankivsk region. I am married. I have got a daughter of 8 years old.

I was born and grown up in a very small township where most of people have a household and keep animals. My family also had some cows, pigs and chickens. My parents taught me how to take care of animals.

I studied at secondary school till 2006. After graduating from school I entered the Agricultural Institute where I received an education in agriculture machinery.

In 2009 I went to Denmark for a practice on a dairy farm with a total of 500 dairy cows and 300 hectares of land. My duties included: milking, feeding, cleaning and disinfecting of stables, caring for calves, preparing silos, work in the field on tractors.

The experience I got there helped me understand in what area of activity I want to work. Of course I chose agriculture. When I worked out my student contract, I returned to Ukraine in order to finish my education.

Talking about work place in Ukraine I worked in the company "Danosha" which had 6 pig farms and one dairy farm for 120 cows, as well as 12,000 hectares of land. There I worked from October 2014 till April 2017 as an operational leader and assistant of an agronomist. There my duties were daily planning and organization of the team; soil cultivation; working with different agricultural machinery such as John Deer tractors, slurry wagons, pumps, hoses, buffer-containers.

In June 2016 I entered Agrarian lyceum, the faculty of veterinary and graduated at 2020. I decided to get one more education, because I always pursue the self-development as it helps me become a professional worker in the sphere of farming.

During studying in the lyceum I had several internships in Norway on the cattle farm of Jens Petter Sveum. My duties were connected mostly with all works in the field on the tractor, caring of the cattle, feeding, giving medicine, cleaning.

I like working with animals and on land. I have a driving license and good work experience on tractors, I can do any operations on soil cultivation and repairs of equipment.

I have good level of English language.

At the moment, in our country there is not the best situation for farming. But I would like to get new experience in the field of agriculture and farming and apply it in the future in Ukraine. That is why I am looking for a seasonal job in Norway at a dairy or cattle farm where I will be able to work with agricultural machinery.

Regards,

Ivan
